eBay item number: 192040573682

Seller assumes all responsibility for this listing.

**Item specifics**

Condition: **Used**

This listing includes:

**One**

**Unidentified Meteorite Found In a farmers field after plowing in Willamette Valley Oregon. Very dense & hard. It is only very slightly MAGNETIC.**

**You can see where it was polished with a grinding wheel (this material is very dense & hard).**

**Size: about 1 5/8" by 1 3/4" x 1 1/2".**

**Weight: 271+ grams (9.5 oz).**

I had a gemologist look at it, the annealed exterior & density make it almost definitely a meteorite, & is 1.5 - 3 times the density/weight of any earth rock I have compared it to: Agate, Quartz, Ulexite, Geode / thunder egg, Petrified wood, Obsidian, Granite, Marble, etc.

Please email me before bidding with any questions you may have.

**PAYMENT IS EXPECTED WITHIN 2 DAYS.**

**FAST SHIPPING, Same day when paid by 3pm )PST, Mon - Fri.**

**At The Treasure Attic in Amity Oregon. we buy, sell, and trade almost anything of value.**

All of our items are previously owned and probably have some wear / tear evident on them, so take a good look at the photos so you know what you are purchasing. I try diligently to describe any observed defects, but may overlook something.

All items are subject to prior sale in our ANTIQUE / Gift store and we reserve the right to cancel transactions in the event of a prior sale. We hope this doesn't cause you any inconvenience.

**I reserve the privilege of selecting the shipping service to be used, unless agreed otherwise prior to receiving payment**

**I also have a more items up for sale right now & I will combine shipment to save you \$\$\$\$ , if you get more than 1 item.**
