Seller's description

I added new photos with a sack of 4 lbs sugar to compare the size of the meteorite. If the meteorite was ground down to grains I think it would fit into a 5 LB sack of sugar.

I'M GIVING UP MY BEAUTIFUL 18.52 LB METEORITE NAMED "CHARLES" AFTER THE PERSON WHO FOUND IT

"CHARLES WAS A TEACHER IN THE L. A. SCHOOL DISTRICT. EVERY SUMMER HE WOULD TRAVEL THROUGH OUT THE SOUTH WEST LOOKING FOR ARTIFACTS TO SHOW HIS STUDENTS.

WHEN I PURCHASED THIS PROPERTY 30 YEARS AGO AFTER HIS DEATH. THERE WERE MANY ARTIFACTS LEFT ON THE PROPERTY SOME OF WHICH I WILL BE LISTING IN THE NEAR FUTURE. THIS WAS ONE OF TWO METEORITES I FOUND. I AM KEEPING THE SMALL ONE. DUE TO MY DOWN SIZING I WILL BE SELLING ALL MY COLLECTIONS, PLEASE CHECK MY OTHER AUCTIONS.

BACK TO THE METEORITE; IT WAS SENT TO BE TESTED 20 YEARS AGO BY MY

2 of 7 7/4/2012 11:12 AM

SON'S SCIENCE HIGH SCHOOL TEACHER

DOWN TO THE SAN BERNARDINO
COUNTY MUSEUM IN REDLANDS CA. IT

TESTED 99.9% IRON (STONY?)
METEORITE. OVER THE YEARS WE
MISSED PLACE THE PAPER THEY SENT
ABOUT THE METEORITE. IN THE PHOTO
#5 YOU CAN SEE WHERE A GOOD SIZE
PIECE WAS REMOVED BY THE MUSEUM
FOR TESTING AND REFERENCE
CATALOGING. THE MISSING PIECE IS IN
THE MUSEUM.

LASTING FOR THIS METEORITE. I WAS
QUESTIONED AS TO IT'S REALITY. IS IT A
METEORITE OR CHUNK OF IRON SLAG?
WHERE DID IT COME FROM? DOING
FURTHUR RESEACH ONLINE I FOUND
THAT IRON SLAG IS LIGHTER THAN IRON
AND FLOATS ON THE SURFACE OF
MOLTEN IRON.
SINCE THE DENSITY OF THIS ITEM FAR
OUT WEIGHTS
IT'S SIZE OF 10" LONG X 6" WIDE X 6 1/2"
HIGH AND IRREGULAR SHAPED AT 18+
LBS. I CAN SAY WITH A GUARANTEE THIS

IS NOT IRON SLAG. I CAN NOT PROVE IT'S
A METEORITE WITH OUT RETESTING. I AM
NOT AN EXPERT BY ANY MEANS NOR DO
I KNOW THAT MUCH ABOUT METEORITES
EXCEPT WHAT I LEARNED RECENTLY
ONLINE. SO WITH THAT SAID I WILL BE
OFFERING WHAT I FEEL AND THINK (WAS
TOLD) THAT THIS IS A METEORITE AND I
WILL BE SELLLING IT AS SUCH. AT A
\$99.99 START PRICE AND A MONEY BACK
REFUND INCLUDING SHIPPING COSTS
(EXECEPT INTERNATIONAL SALES) BOTH
WAYS IF IT PROVES NOT TO BE A
METEORITE. IT IS UP TO YOU IF YOU
WANT TO BID.

PLEASE CHECK OUT THE PHOTOS FOR SIZES.

THIS ITEM WILL BE SHIPPED USPS PRIORITY MAIL FLAT RATE BOX. INSURANCE IS INCLUDED IN SHIPPING COSTS

Questions and answers about this item	
Q: I was watching this on your original listing. Did the buyer fall through? A: NO, I CANCELED ALL THE BIDS AND LISTING TO CORRECT ANY ERRORS OTHER METEORITE COLLECTORS HAD WARNED ME ABOUT. THIS IS THE NEW LISTING AND MORE FAIR WITH THE DESCRIPTION.	Jul 02, 2012
Q: I think what you added is fair. Thanks for fixing the listing. A: Thank you for the corrections. After i checked around what you said made sense. I guess you can't trust your neighbors for true facts. But this was checked ou by the museum in San Bernardino. I saw the paper back when. Have a great week. kenny	Jul 02, 2012
Q: Does a magnet stick to any part of the meteorite? A: YES AND THERE ARE ALSO TINY SPARKLES OF REFLECTIVE MATERIAL INSIDE THE CUT PIECE. ALSO SOME KIND OF WHITE CRYSTAL SUBSTANCE.	Jul 02, 2012
