Item specifics

Classified:	Iron Chondrite	Type:	Iron Meteorite
Origin:	City of Abbott, Texas		

100% AUTHENTIC Stony Iron Chondrite Meteorite

From Abbott, Texas vicinity

Walking along the roads in and around Abbott, Texas I stumbled on this piece with a total weight of 7.1 grams, size: 20mm long x 18mm Wide x 14mm Thick, and attracted to magnet. From vicinity of city of Abbott, Texas just north of the city of West, Texas where many meteorites exploded and fell. The **darker areas** on this specimen reveals crust from super heat and explosion from entry into Earth's atmosphere. I've collected and sold many meteorites on eBay and experts have always found my descriptions to be accurate just see feedback it says it all.

Give it as a remembered gift of science where this piece traveled around the galaxy, our Sun and then fell onto Earth.

***** Shipping *****

We ship via US Postal Service with receipt to winning bidders address within 3-5 business days of purchase.
