## **ITEM:**

Here is an approximately 6" x 8" (5 3/4" x 7 3/4") glossy paper, ideal for framing (frame not included) that comes printed exactly as shown along with a very tiny dust speck piece of a Mars meteorite adhered to it. It is barely visible but can be seen up very, very close without magnification. It's glued inside the small white box at the bottom center. The dust speck came from a very small piece of a Mars meteorite that fell over Morocco in 2011. We just purchased that small piece on ebay. To reiterate, the Mars dust speck piece you will receive will be extremely tiny but it will be genuine and will be visible up close with the naked eye.

## **SHIPPING:**

Flat rate of just \$3.95 USA, \$4.95 world wide no matter how many items you buy from us!
